

# *The possibilities are endless with Heart of Iowa's FREE 20-Way Conference Bridge!*

## **How to Use the 20-Way Conference Bridge...**

- Choose any five digit number combination to create a conference pin# (number), then notify those that you want to participate (up to 20 lines) on the call of your five digit pin# you have selected. Tell each call participant of the time the call will take place.
  - Also, inform each call participant with the Conference Bridge phone number - 641-486-9000.
  - At the time of your scheduled Conference Call each participant calls 641-486-9000, then enters the conference pin#. They are then connected to the conference call.
  - When choosing a five digit pin#, please be original. Do not choose generic ones like "12345" or "00000". If another party has picked that pin# you could get in on someone else's call and miss yours.
