STAY CONNECTED. STAY PROTECTED.

CommandIQ®

CommandIQ® is a free mobile app that gives you full control over your home Wi-Fi network. With it, you can easily set up your Wi-Fi, see which devices are connected, run speed tests, create guest networks, share Wi-Fi access, and receive network alerts.

The CommandIQ® app is designed to be user-friendly, so you can customize your internet experience right from your phone – anytime, anywhere.

ProtectIQ®

ProtectIQ® is a security feature that helps protect your home network from online threats like viruses and malicious websites. It works automatically in the background to block harmful content before it reaches your devices.

- **Blocks threats automatically**
- **Protects all connected devices**
- **Runs silently in the background**
- **Real-time alerts**

ExperiencelQ®

ExperiencelQ® is a tool that lets you manage your home Wi-Fi experience.

It gives you control over things like setting parental controls, creating time limits for internet use, blocking specific websites, and prioritizing devices for better performance.

- **Set parental controls**
- **Create time limits**
- **Block websites**
- **Prioritize devices**
